Papa John's International, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

(Unaudited)

June 27, 2010

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation have been included. Operating results for the six months ended June 27, 2010 are not necessarily indicative of the results that may be expected for the fiscal year ended December 26, 2010. For further information, refer to the consolidated financial statements and footnotes thereto included in the Annual Report on Form 10-K for Papa John's International, Inc. (referred to as the "Company", "Papa John's" or in the first person notations of "we", "us" and "our") for the year ended December 27, 2009.

2. Significant Accounting Policies

Recently Adopted Accounting Principle

In 2009, the Financial Accounting Standards Board ("FASB") amended the consolidation principles associated with variable interest entities ("VIEs") accounting by replacing the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in the VIE with a qualitative approach. The qualitative approach is focused on identifying which company has both the power to direct the activities of a VIE that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity or the right to receive benefits from the entity.

Based on the amended consolidation principles, beginning in fiscal 2010, we are no longer required to consolidate certain franchise entities to which we have extended loans. Accordingly, we did not consolidate the financial results of certain franchise entities in the accompanying financial statements for the three and six months ended June 27, 2010 and have retrospectively applied the provisions to prior period financial statements. The retrospective application resulted in the exclusion of \$3.4 million of assets in our accompanying consolidated balance sheet at December 27, 2009 (there was no impact on our consolidated statements of stockholders' equity from this new accounting pronouncement). Additionally, our consolidated income statement has been adjusted to exclude \$11.2 million and \$16.9 million of revenues for the three and six months ended June 28, 2009, respectively, associated with these entities. The operating results of these previously consolidated entities had no impact on Papa John's operating results or earnings per share for the three and six months ended June 28, 2009.

Noncontrolling Interests

The Consolidation topic of the Accounting Standards Codification ("ASC") requires all entities to report noncontrolling (minority) interests in subsidiaries as equity in the consolidated financial statements, but separate from the equity of the parent company. The Consolidation topic further requires that consolidated net income be reported at amounts attributable to the parent and the noncontrolling interest, rather than expensing the income attributable to the minority interest holder. Additionally, disclosures are required to clearly identify and distinguish between the interests of the parent company and the interests of the noncontrolling owners, including a disclosure on the face of the consolidated statements for income attributable to the noncontrolling interest holder.

[Table of Contents](#)

Papa John's had two joint venture arrangements as of June 27, 2010 and June 28, 2009, which were as follows:

	<u>Restaurants as of June 27, 2010</u>	<u>Restaurant Locations</u>	<u>Papa John's Ownership *</u>	<u>Noncontrolling Interest Ownership *</u>
Star Papa, LP	75	Texas	51%	49%
Colonel's Limited, LLC	52	Maryland and Virginia	70%	30%

*The ownership percentages were the same for both the 2010 and 2009 periods presented in the accompanying consolidated financial statements.

The pre-tax income attributable to the joint ventures for the three and six months ended June 27, 2010 and June 28, 2009 was as follows:

(In thousands)	<u>Three Months Ended</u>		<u>Six Months Ended</u>	
	<u>June 27, 2010</u>	<u>June 28, 2009</u>	<u>June 27, 2010</u>	<u>June 28, 2009</u>
Papa John's International, Inc.	\$ 1,447	\$ 1,700	\$ 3,094	\$ 3,275
Noncontrolling interests	911	1,092	2,000	2,017
Total pre-tax income	<u>\$ 2,358</u>	<u>\$ 2,792</u>	<u>\$ 5,094</u>	<u>\$ 5,292</u>

The noncontrolling interest holders' equity in the joint venture arrangements totaled \$9.3 million as of June 27, 2010 and \$8.2 million as of December 27, 2009.

Deferred Income Tax Assets and Tax Reserves

Papa John's is subject to income taxes in the United States and several foreign jurisdictions. Significant judgment is required in determining Papa John's provision for income taxes and the related assets and liabilities. The provision for income taxes includes income taxes paid, currently payable or receivable and those deferred. Deferred tax assets and liabilities are determined based on differences between financial reporting and tax basis of assets and liabilities, and are measured using enacted tax rates and laws that are expected to be in effect when the differences reverse. Deferred tax assets are also recognized for the estimated future effects of tax loss carryforwards. The effect on deferred taxes of changes in tax rates is recognized in the period in which the enactment date changes. As a result, our effective tax rate may fluctuate. Valuation allowances are established when necessary on a jurisdictional basis to reduce deferred tax assets to the amounts we expect to realize.

As of June 27, 2010, we had a net deferred income tax asset balance of \$14.8 million, of which approximately \$4.9 million relates to the net operating loss carryforward of BIBP Commodities, Inc. ("BIBP"). We have not provided a valuation allowance for the deferred income tax assets associated with our domestic operations, including BIBP, since we believe it is more likely than not that future earnings will be sufficient to ensure the realization of the net deferred income tax assets for federal and state purposes.

Certain tax authorities periodically audit the Company's income tax filings. We provide reserves for potential exposures. We evaluate these issues on a quarterly basis to adjust for events, such as court rulings or audit settlements that may impact our ultimate payment for such exposures.

Modification of our Non-qualified Deferred Compensation Plan

During the first quarter of 2010, we modified the provisions of our non-qualified deferred compensation plan. Previously, participants who elected an investment in phantom Papa John's stock were paid in cash upon settlement of their investment balance. Effective the first quarter of 2010, we began settling future distributions of the deemed investment balances in Papa John's stock through the issuance of Company stock. Accordingly, during the first quarter of 2010, we reclassified \$2.0 million from other long-term liabilities to paid-in capital in the accompanying consolidated financial statements.

Subsequent Events

The Company evaluated subsequent events through the date the financial statements were issued and filed with the Securities and Exchange Commission. In July, the Company implemented an initiative to reduce general and administrative (G&A) expenses which included a reduction in force primarily in the corporate support area and our printing and promotions subsidiary. After considering severance and related costs, the G&A initiative is not expected to have a significant impact on operating income for the second half of 2010. Cost savings from the initiative are expected to approximate \$4.0 million to \$4.5 million in 2011.

3. Accounting for Variable Interest Entities

The Consolidation topic of the ASC provides a framework for identifying VIEs and determining when a company should include the assets, liabilities, noncontrolling interests and results of activities of a VIE in its consolidated financial statements.

In general, a VIE is a corporation, partnership, limited liability company, trust, or any other legal structure used to conduct activities or hold assets that either (1) has an insufficient amount of equity to carry out its principal activities without additional subordinated financial support, (2) has a group of equity owners that are unable to make significant decisions about its activities, or (3) has a group of equity owners that do not have the obligation to absorb losses or the right to receive returns generated by its operations.

Consolidation of a VIE is required if a party with an ownership, contractual or other financial interest in the VIE ("a variable interest holder") has both of the following characteristics: (1) has the power to direct the activities of a VIE that most significantly impact the VIE's economic performance and (2) is obligated to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE. A variable interest holder that consolidates the VIE is called the primary beneficiary. Upon consolidation, the primary beneficiary generally must initially record all of the VIE's assets, liabilities and noncontrolling interests at fair value and subsequently account for the VIE as if it were consolidated based on majority voting interest. Disclosures about VIEs that the variable interest holder is not required to consolidate but in which it has a significant variable interest is also required. See Note 2 for the impact on our financial statements from the FASB's recent amendment to VIE accounting.

We have a purchasing arrangement with BIBP, a special-purpose entity formed at the direction of our Franchise Advisory Council, for the sole purpose of reducing cheese price volatility to domestic system-wide restaurants. BIBP is an independent, franchisee-owned corporation. BIBP purchases cheese at the market price and sells it to our distribution subsidiary, PJ Food Service, Inc. ("PJFS"), at a fixed price. PJFS in turn sells cheese to Papa John's restaurants (both Company-owned and franchised) at a fixed monthly price. PJFS purchased \$37.4 million and \$76.5 million of cheese from BIBP for the three and six months ended June 27, 2010, respectively, compared to \$35.0 million and \$71.0 million in the 2009 comparable periods, respectively.

We are deemed the primary beneficiary of BIBP, a VIE, for accounting purposes. We recognize the operating losses generated by BIBP if BIBP's shareholders' equity is in a net deficit position. Further, we recognize the subsequent operating income generated by BIBP up to the amount of any losses previously recognized. We recognized pre-tax income of \$2.7 million (\$1.7 million net of tax, or \$0.06 per diluted share) and \$6.2 million

[Table of Contents](#)

(\$3.9 million net of tax, or \$0.14 per diluted share) for the three and six months ended June 27, 2010, respectively, and pre-tax income of \$6.9 million (\$4.2 million net of tax, or \$0.15 per share) and \$15.9 million (\$10.0 million net of tax, or \$0.36 per share) for the three and six months ended June 28, 2009, respectively, from the consolidation of BIBP. Although not assured, we expect BIBP's cumulative deficit would be substantially repaid at the end of 2012. The impact on future operating income from the consolidation of BIBP is expected to continue to be significant for any given reporting period due to the anticipated volatility of the cheese market, but is not expected to be cumulatively significant over time.

At June 27, 2010, BIBP had a \$10.0 million line of credit with a commercial bank, which is guaranteed by Papa John's (no balance was outstanding as of June 27, 2010). In addition, Papa John's agreed to provide additional funding in the form of a loan to BIBP. As of June 27, 2010, BIBP had \$18.8 million of short-term debt outstanding under the line of credit from Papa John's (the \$18.8 million outstanding balance under the Papa John's line of credit is eliminated upon consolidation of the financial results of BIBP with Papa John's).

The following table summarizes the balance sheets for BIBP as of June 27, 2010 and December 27, 2009:

(In thousands)	June 27, 2010	December 27, 2009
Assets:		
Cash and cash equivalents	\$ 3,951	\$ 3,857
Accounts receivable - Papa John's	1,016	469
Other current assets	1,251	1,917
Deferred income taxes	4,902	7,064
Total assets	<u>\$ 11,120</u>	<u>\$ 13,307</u>
Liabilities and stockholders' equity (deficit):		
Accounts payable and accrued expenses	\$ 1,318	\$ 1,596
Short-term debt - Papa John's	18,833	24,633
Total liabilities	20,151	26,229
Stockholders' equity (deficit)	(9,031)	(12,922)
Total liabilities and stockholders' equity (deficit)	<u>\$ 11,120</u>	<u>\$ 13,307</u>

4. Debt

Our debt is comprised of the following (in thousands):

	June 27, 2010	December 27, 2009
Revolving line of credit	\$ 99,000	\$ 99,000
Other	35	50
Total debt	99,035	99,050
Less: current portion of debt	(99,035)	—
Long-term debt	<u>\$ —</u>	<u>\$ 99,050</u>

In January 2006, we executed a five-year, unsecured Revolving Credit Facility ("Credit Facility") totaling \$175.0 million. Under the Credit Facility, outstanding balances accrue interest at 50.0 to 100.0 basis points over the London Interbank Offered Rate (LIBOR) or other bank-developed rates, at our option. The commitment fee

[Table of Contents](#)

on the unused balance ranges from 12.5 to 20.0 basis points. The increment over LIBOR and the commitment fee are determined quarterly based upon the ratio of total indebtedness to earnings before interest, taxes, depreciation and amortization (EBITDA), as defined. The remaining availability under our line of credit, reduced for certain outstanding letters of credit, approximated \$59.7 million as of June 27, 2010 and \$58.0 million as of December 27, 2009. The fair value of our outstanding debt approximates the carrying value since our debt agreements are variable-rate instruments.

The Credit Facility contains customary affirmative and negative covenants, including financial covenants requiring the maintenance of specified fixed charges and leverage ratios. At June 27, 2010 and December 27, 2009, we were in compliance with these covenants.

The revolving line of credit expires in January 2011 and thus the \$99.0 million outstanding loan balance is classified as a current liability as of June 27, 2010. We plan to renew and extend the line of credit during the third quarter of 2010. We do not anticipate any problems in renewing the line of credit.

We presently have two interest rate swap agreements ("swaps") that provide fixed interest rates, as compared to LIBOR, as follows:

	Floating Rate Debt	Fixed Rates
<i>The first interest rate swap agreement:</i>		
January 16, 2007 to January 15, 2009	\$ 60 million	4.98%
January 15, 2009 to January 15, 2011	\$ 50 million	4.98%
<i>The second interest rate swap agreement:</i>		
January 31, 2009 to January 31, 2011	\$ 50 million	3.74%

Our swaps are derivative instruments that are designated as cash flow hedges because the swaps provide a hedge against the effects of rising interest rates on present and/or forecasted future borrowings. The effective portion of the gain or loss on the swaps is reported as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the swaps affect earnings. Gains or losses on the swaps representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. Amounts payable or receivable under the swaps are accounted for as adjustments to interest expense.

The following tables provide information on the location and amounts of our swaps in the accompanying consolidated financial statements (in thousands):

Fair Values of Derivative Instruments:

Type of Derivative	Balance Sheet Location	Liability Derivatives	
		Fair Value June 27, 2010	Fair Value December 27, 2009
Interest rate swaps	Other long-term liabilities	\$ 2,249	\$ 4,044

There were no derivatives that were not designated as hedging instruments under the provisions of the ASC topic, Derivatives and Hedging.

Effect of Derivative Instruments on the Consolidated Financial Statements:

Derivatives - Cash Flow Hedging Relationships	Amount of Gain or (Loss) Recognized in OCI on Derivative (Effective Portion)	Classification of Gain or (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)	Amount of Gain or (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)	Classification of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)	Amount of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)
<i>Interest rate swaps:</i>					
Three months ended:					
June 27, 2010	\$ 647	Interest expense	\$ (1,028)	Not applicable	\$ 0
June 28, 2009	\$ 447	Interest expense	\$ (997)	Not applicable	\$ 0
Six months ended:					
June 27, 2010	\$ 1,149	Interest expense	\$ (2,071)	Not applicable	\$ 0
June 28, 2009	\$ 573	Interest expense	\$ (1,968)	Not applicable	\$ 0

The weighted average interest rate for our Credit Facility, including the impact of the previously mentioned interest rate swap agreements, was 5.03% and 4.83% for the three months ended June 27, 2010 and June 28, 2009, respectively, and 5.03% and 4.65% for the six months ended June 27, 2010 and June 28, 2009. Interest paid, including payments made or received under the swaps, was \$1.3 million and \$2.6 million for the three and six months ended June 27, 2010, respectively, compared to \$1.4 million and \$2.8 million for the three and six months ended June 28, 2009, respectively. The interest rate swap liability of \$2.2 million as of June 27, 2010 will be reclassified into earnings during the next seven months as interest expense.

5. Calculation of Earnings Per Share

The calculations of basic earnings per common share and earnings per common share — assuming dilution are as follows (in thousands, except per-share data):

	Three Months Ended		Six Months Ended	
	June 27, 2010	June 28, 2009	June 27, 2010	June 28, 2009
Basic earnings per common share:				
Net income	\$ 13,192	\$ 14,177	\$ 30,067	\$ 32,016
Weighted average shares outstanding	26,760	27,789	26,901	27,715
Basic earnings per common share	<u>\$ 0.49</u>	<u>\$ 0.51</u>	<u>\$ 1.12</u>	<u>\$ 1.16</u>
Earnings per common share - assuming dilution:				
Net income	\$ 13,192	\$ 14,177	\$ 30,067	\$ 32,016
Weighted average shares outstanding	26,760	27,789	26,901	27,715
Dilutive effect of outstanding compensation awards	211	200	135	145
Diluted weighted average shares outstanding	<u>26,971</u>	<u>27,989</u>	<u>27,036</u>	<u>27,860</u>
Earnings per common share - assuming dilution	<u>\$ 0.49</u>	<u>\$ 0.51</u>	<u>\$ 1.11</u>	<u>\$ 1.15</u>

Shares subject to options to purchase common stock with an exercise price greater than the average market price for the quarter were not included in the computation of the dilutive effect of common stock options because the effect would have been antidilutive. The weighted average number of shares subject to the antidilutive options was 1.5 million and 1.4 million for the three-month periods ending June 27, 2010 and June 28, 2009, respectively. The weighted average number of shares subject to the antidilutive options for the six month periods ending June 27, 2010 and June 28, 2009 were 1.5 million and 1.4 million, respectively.

6. Comprehensive Income

Comprehensive income is comprised of the following:

(In thousands)	Three Months Ended		Six Months Ended	
	June 27, 2010	June 28, 2009	June 27, 2010	June 28, 2009
Net income, including noncontrolling interests	\$ 14,103	\$ 15,269	\$ 32,067	\$ 34,033
Change in valuation of interest rate swap agreements, net of tax	647	447	1,149	573
Foreign currency translation	325	3,275	(1,437)	2,260
Comprehensive income	<u>\$ 15,075</u>	<u>\$ 18,991</u>	<u>\$ 31,779</u>	<u>\$ 36,866</u>

7. Notes Receivable

Selected franchisees have borrowed funds from our subsidiary, Capital Delivery, Ltd., principally for use in the acquisition, construction and development of their restaurants. We have also entered into loan agreements with certain franchisees that purchased restaurants from us.

Loans outstanding, net of allowance for doubtful accounts, were approximately \$15.1 million as of June 27, 2010 and \$16.4 million as of December 27, 2009. We have recorded reserves of \$7.3 million and \$7.6 million as of June 27, 2010 and December 27, 2009, respectively, for potentially uncollectible notes receivable. We

concluded the reserves were necessary due to certain borrowers' economic performance and underlying collateral value.

8. Contingencies

In connection with the 2006 sale of our former Perfect Pizza operations in the United Kingdom, we remain contingently liable for payment under 62 lease arrangements, primarily associated with Perfect Pizza restaurant sites for which the Perfect Pizza franchisor is primarily liable. The leases have varying terms, the latest of which expires in 2017. As of June 27, 2010, the potential amount of undiscounted payments we could be required to make in the event of non-payment by the new owner of Perfect Pizza and associated franchisees was approximately \$4.8 million. We have not recorded a liability with respect to such leases at June 27, 2010, as our cross-default provisions with the Perfect Pizza franchisor significantly reduce the risk that we will be required to make payments under these leases.

We are subject to claims and legal actions in the ordinary course of business. We believe that all such claims and actions currently pending against us are either adequately covered by insurance or would not have a material adverse effect on us if decided in a manner unfavorable to us.

9. Segment Information

We have defined six reportable segments: domestic restaurants, domestic commissaries, domestic franchising, international operations, variable interest entities ("VIEs") and "all other" units.

The domestic restaurant segment consists of the operations of all domestic ("domestic" is defined as contiguous United States) Company-owned restaurants and derives its revenues principally from retail sales of pizza and side items, such as breadsticks, cheesesticks, chicken strips, chicken wings, dessert pizza, and soft drinks to the general public. The domestic commissary segment consists of the operations of our regional dough production and product distribution centers and derives its revenues principally from the sale and distribution of food and paper products to domestic Company-owned and franchised restaurants. The domestic franchising segment consists of our franchise sales and support activities and derives its revenues from sales of franchise and development rights and collection of royalties from our domestic franchisees. The international operations segment principally consists of our Company-owned restaurants and distribution sales to franchised Papa John's restaurants located in the United Kingdom, China and Mexico and our franchise sales and support activities, which derive revenues from sales of franchise and development rights and the collection of royalties from our international franchisees. International franchisees are defined as all franchise operations outside of the 48 contiguous United States. BIBP is a variable interest entity in which we are deemed the primary beneficiary, as defined in Note 3, and is the only activity reflected in the VIE segment for both periods presented. All other business units that do not meet the quantitative thresholds for determining reportable segments consist of operations that derive revenues from the sale, principally to Company-owned and franchised restaurants, of printing and promotional items, risk management services, and information systems and related services used in restaurant operations, including our online and other technology-based ordering platforms.

Generally, we evaluate performance and allocate resources based on profit or loss from operations before income taxes and eliminations. Certain administrative and capital costs are allocated to segments based upon predetermined rates or actual estimated resource usage. We account for intercompany sales and transfers as if the sales or transfers were to third parties and eliminate the related profit in consolidation.

Our reportable segments are business units that provide different products or services. Separate management of each segment is required because each business unit is subject to different operational issues and strategies. No single external customer accounted for 10% or more of our consolidated revenues.

[Table of Contents](#)

Our segment information is as follows:

(In thousands)	Three Months Ended		Six Months Ended	
	June 27, 2010	June 28, 2009	June 27, 2010	June 28, 2009
Revenues from external customers:				
Domestic Company-owned restaurants	\$ 124,594	\$ 124,966	\$ 254,238	\$ 256,671
Domestic commissaries	113,936	104,539	226,576	214,078
Domestic franchising	17,241	14,742	35,023	30,331
International	11,853	10,281	23,060	19,603
All others	13,023	13,981	27,536	28,750
Total revenues from external customers	\$ 280,647	\$ 268,509	\$ 566,433	\$ 549,433
Intersegment revenues:				
Domestic commissaries	\$ 33,234	\$ 31,434	\$ 66,878	\$ 65,509

Variable interest entities	2,678	6,854	6,163	15,879
All others	178	613	1,127	1,014
Unallocated corporate expenses	(12,129)	(13,673)	(22,959)	(26,698)
Elimination of intersegment profits	(133)	(101)	(220)	(116)
Total income before income taxes	\$ 21,663	\$ 23,306	\$ 48,592	\$ 52,372
Income attributable to noncontrolling interests	(911)	(1,092)	(2,000)	(2,017)
Total income before income taxes, net of noncontrolling interests	\$ 20,752	\$ 22,214	\$ 46,592	\$ 50,355
Property and equipment:				
Domestic Company-owned restaurants	\$ 162,380			
Domestic commissaries	80,426			
International	18,026			
All others	31,878			
Unallocated corporate assets	124,543			
Accumulated depreciation and amortization	(228,226)			
Net property and equipment	\$ 189,027			

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations and Critical Accounting Policies and Estimates

Papa John's International, Inc. (referred to as the "Company," "Papa John's" or in the first person notations of "we," "us" and "our") began operations in 1985. At June 27, 2010, there were 3,516 Papa John's restaurants (619 Company-owned and 2,897 franchised) operating in all 50 states and 28 countries. Our revenues are principally derived from retail sales of pizza and other food and beverage products to the general public by Company-owned restaurants, franchise royalties, sales of franchise and development rights, sales to franchisees of food and paper products, printing and promotional items, risk management services, and information systems and related services used in their operations.

The results of operations are based on the preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States. The preparation of consolidated financial statements requires management to select accounting policies for critical accounting areas and make estimates and assumptions that affect the amounts reported in the consolidated financial statements. Significant changes in assumptions and/or conditions in our critical accounting policies could materially impact the operating results. We have identified the following accounting policies and related judgments as critical to understanding the results of our operations:

Allowance for Doubtful Accounts and Notes Receivable

We establish reserves for uncollectible accounts and notes receivable based on overall receivable aging levels and a specific evaluation of accounts and notes for franchisees and other customers with known financial difficulties. These reserves and corresponding write-offs could significantly increase if the identified franchisees and other customers begin to or continue to experience deteriorating financial results.

Long-Lived and Intangible Assets

The recoverability of long-lived assets is evaluated if impairment indicators exist. Indicators of impairment include historical financial performance, operating trends and our future operating plans. If impairment indicators exist, we evaluate the recoverability of long-lived assets on an operating unit basis (e.g., an individual restaurant) based on undiscounted expected future cash flows before interest for the expected remaining useful life of the operating unit. Recorded values for long-lived assets that are not expected to be recovered through undiscounted future cash flows are written down to current fair value, which is generally determined from estimated discounted future net cash flows for assets held for use or estimated net realizable value for assets held for sale.

The recoverability of indefinite-lived intangible assets (i.e., goodwill) is evaluated annually or more frequently if impairment indicators exist, on a reporting unit basis by comparing the estimated fair value to its carrying value. Our estimated fair value for Company-owned restaurants is comprised of two components. The first component is the estimated cash sales price that would be received at the time of the sale and the second component is an investment in the continuing franchise agreement, representing the discounted value of future royalties less any incremental direct operating costs that would be collected under the ten-year franchise agreement.

At June 27, 2010, we had a net investment of approximately \$20.9 million associated with our United Kingdom subsidiary (PJUK). The goodwill allocated to this entity approximated \$14.3 million at June 27, 2010. We have previously recorded goodwill impairment charges for this entity. We have developed plans for PJUK to continue to improve its operating results. The plans include efforts to increase Papa John's brand awareness in the United Kingdom, improve sales and profitability for individual restaurants and increase net PJUK franchised unit openings over the next several years. We will continue to periodically evaluate our progress in achieving these plans.

[Table of Contents](#)

If our growth initiatives with PJUK and certain domestic markets are not successful, future impairment charges could be recorded.

Insurance Reserves

Our insurance programs for workers' compensation, general liability, owned and non-owned automobiles and health insurance coverage provided to our employees are self-insured up to certain individual and aggregate reinsurance levels. Losses are accrued based upon estimates of the aggregate retained liability for claims incurred using certain third-party actuarial projections and our claims loss experience. The estimated insurance claims losses could be significantly affected should the frequency or ultimate cost of claims significantly differ from historical trends used to estimate the insurance reserves recorded by the Company.

From October 2000 through September 2004, our captive insurance company, which provided insurance to our franchisees, was self-insured. In October 2004, a third-party commercial insurance company began providing fully-insured coverage to franchisees participating in the franchise insurance program. Accordingly, this arrangement eliminates our risk of loss for franchise insurance coverage written after September 2004. Our operating income is still subject to potential adjustments for changes in estimated insurance reserves for policies written from the inception of the captive insurance company in October 2000 to September 2004. Such adjustments, if any, will be determined in part based upon periodic actuarial valuations.

Deferred Income Tax Assets and Tax Reserves

Papa John's is subject to income taxes in the United States and several foreign jurisdictions. Significant judgment is required in determining Papa John's provision for income taxes and the related assets and liabilities. The provision for income taxes includes income taxes paid, currently payable or receivable and those deferred. Deferred tax assets and liabilities are determined based on differences between financial reporting and tax basis of assets and liabilities, and are measured using enacted tax rates and laws that are expected to be in effect when the differences reverse. Deferred tax assets are also recognized for the estimated future effects of tax loss carryforwards. The effect on deferred taxes of changes in tax rates is recognized in the period in which the enactment date changes. As a result, our effective tax rate may fluctuate. Valuation allowances are established when necessary on a jurisdictional basis to reduce deferred tax assets to the amounts we expect to realize.

As of June 27, 2010, we had a net deferred income tax asset balance of \$14.8 million, of which approximately \$4.9 million relates to the net operating loss carryforward of BIBP Commodities, Inc. ("BIBP"). We have not provided a valuation allowance for the deferred income tax assets associated with our domestic operations, including BIBP, since we believe it is more likely than not that future earnings will be sufficient to ensure the realization of the net deferred income tax assets for federal and state purposes.

Certain tax authorities periodically audit the Company. We provide reserves for potential exposures. We evaluate these issues on a quarterly basis to adjust for events, such as court rulings or audit settlements that may impact our ultimate payment for such exposures.

Consolidation of BIBP Commodities, Inc. as a Variable Interest Entity

BIBP is a franchisee-owned corporation that conducts a cheese-purchasing program on behalf of domestic Company-owned and franchised restaurants. We consolidate the financial results of BIBP, since we are the primary beneficiary, as defined. We recognized pre-tax income of \$2.7 million and \$6.2 million for the three and six months ended June 27, 2010, respectively, compared to \$6.9 million and \$15.9 million for the same periods in 2009, respectively, from the consolidation of BIBP. We expect the consolidation of BIBP to continue to have a significant impact on Papa John's operating income in future periods due to the volatility of cheese prices, but BIBP's operating results are not expected to be cumulatively significant over time. Papa John's will recognize the losses generated by BIBP if the shareholders' equity of BIBP is in a net deficit position. Further, Papa John's

[Table of Contents](#)

will recognize subsequent income generated by BIBP up to the amount of BIBP losses previously recognized by Papa John's.

Recent Accounting Pronouncements

In 2009, the Financial Accounting Standards Board ("FASB") amended the consolidation principles associated with variable interest entities ("VIEs") accounting by replacing the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in the VIE with a qualitative approach. The qualitative approach is focused on identifying which company has both the power to direct the activities of a VIE that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity or the right to receive benefits from the entity.

Based on the amended consolidation principles, beginning in fiscal 2010, we are no longer required to consolidate certain franchise entities to which we have extended loans. Accordingly, we did not consolidate the financial results of certain franchise entities in the accompanying financial statements for the three and six months ended June 27, 2010 and have retrospectively applied the provisions to prior period financial statements. The retrospective application resulted in the exclusion of \$3.4 million of assets in our accompanying consolidated balance sheet at December 27, 2009 (there was no impact on our consolidated statements of stockholders equity from this new accounting pronouncement). Additionally, our consolidated income statement for the three and six months ended June 28, 2009 has been adjusted to exclude \$11.2 million and \$16.9 million of revenues, respectively, associated with these entities. The operating results of the entities had no impact on Papa John's operating results or earnings per share for the three and six months ended June 28, 2009.

Restaurant Progression:

	Three Months Ended		Six Months Ended	
	June 27, 2010	June 28, 2009	June 27, 2010	June 28, 2009
Papa John's Restaurant Progression:				
Domestic Company-owned:

Results of Operations
Variable Interest Entities

As required by the Consolidation topic of the ASC, our operating results include BIBP's operating results. The consolidation of BIBP had a significant impact on our operating results for the six months ended June 27, 2010 and for the full year of 2009, and is expected to have a significant impact on our future operating results, including the full year of 2010, and income statement presentation as described below.

Consolidation accounting requires the net impact from the consolidation of BIBP to be reflected primarily in three separate components of our statement of income. The first component is the portion of BIBP operating income or loss attributable to the amount of cheese purchased by Company-owned restaurants during the period. This portion of BIBP operating income (loss) is reflected as a reduction (increase) in the "Domestic Company-owned restaurant expenses - cost of sales" line item. This approach effectively reports cost of sales for Company-owned restaurants as if the purchasing arrangement with BIBP did not exist and such restaurants were purchasing cheese at the spot market prices (i.e., the impact of BIBP is eliminated in consolidation).

The second component of the net impact from the consolidation of BIBP is reflected in the caption "Income from the franchise cheese-purchasing program, net of noncontrolling interest." This line item represents BIBP's income or loss from purchasing cheese at the spot market price and selling to franchised restaurants at a fixed

[Table of Contents](#)

monthly price, net of any income or loss attributable to the minority interest BIBP shareholders. The amount of income or loss attributable to the BIBP shareholders depends on its cumulative shareholders' equity balance and the change in such balance during the reporting period. The third component is reflected as investment income or interest expense, depending upon whether BIBP is in a net investment or net borrowing position during the reporting period.

The following table summarizes the impact of BIBP, prior to the required consolidating eliminations, on our consolidated statements of income for the three and six months ended June 27, 2010 and June 28, 2009 (in thousands):

	Three Months Ended		Six Months Ended	
	June 27, 2010	June 28, 2009	June 27, 2010	June 28, 2009
BIBP sales	\$ 37,362	\$ 35,028	\$ 76,504	\$ 71,000
Operating expenses	34,555	27,923	70,049	54,582
General and administrative expenses	12	26	41	51
Total costs and expenses	34,567	27,949	70,090	54,633
Operating income	2,795	7,079	6,414	16,367
Interest expense	(117)	(225)	(251)	(488)
Income before income taxes	\$ 2,678	\$ 6,854	\$ 6,163	\$ 15,879

Non-GAAP Measures

The financial information we present in this report that excludes the impact of the consolidation of BIBP are not measures that are defined within accounting principles generally accepted in the United States ("GAAP"). These non-GAAP measures should not be construed as a substitute for or a better indicator of the Company's performance than the Company's GAAP measures. We believe the financial information excluding the impact of the consolidation of BIBP is important for purposes of comparison to prior periods and development of future projections and earnings growth prospects. We analyze our business performance and trends excluding the impact of the consolidation of BIBP because the results of BIBP are not indicative of our principal operating activities. In addition, annual cash bonuses, and certain long-term incentive programs for various levels of management, are based on financial measures that exclude BIBP. The presentation of the non-GAAP measures in this report is made alongside the most directly comparable GAAP measures.

Summary of Operating Results

Total revenues were \$280.6 million for the second quarter of 2010, representing an increase of 4.5% from revenues of \$268.5 million for the same period in 2009. For the six months ended June 27, 2010, total revenues were \$566.4 million, representing an increase of 3.1% from revenues of \$549.4 million for the comparable period in 2009. The increases of \$12.1 million and \$17.0 million in revenues for the three and six months ended June 27, 2010, respectively, were primarily due to the following:

- Franchise royalties revenue increased \$2.5 million and \$4.9 million for the three and six months ended June 27, 2010, respectively, primarily due to an increase in the royalty rate (the standard royalty rate for domestic franchise restaurants was 4.25% during the first six months of 2009 and was increased to 4.75% in the first six months of 2010 as provided for in the franchise agreement).
- Domestic commissary sales increased \$9.4 million and \$12.5 million for the three and six months ended June 27, 2010, respectively, due to an increase in sales volumes.
- International revenues increased \$1.6 million and \$3.5 million for the three and six months ended June 27, 2010, respectively, reflecting increases in the number of our Company-owned and franchised restaurants.

[Table of Contents](#)

- Domestic Company-owned restaurant sales decreased \$400,000 and \$2.4 million for the three and six months ended June 27, 2010, respectively. The decreases in revenues were due to decreases of 1.1% and 1.5% in comparable sales, as an increase in customer traffic was more than offset by a decrease in the average ticket price, as the level of discounting was increased consistent with the competitive environment in which we are currently operating.
- Other sales decreased \$1.0 million and \$1.2 million for the three and six months ended June 27, 2010, respectively, primarily due to a decline in sales at our print and promotions subsidiary, Preferred Marketing Solutions.

Our income before income taxes, net of noncontrolling interests, totaled \$20.8 million and \$46.6 million for the three and six months ended June 27, 2010, compared to \$22.2 million and \$50.4 million for the same periods in 2009 as summarized in the following table on an operating segment basis (in thousands):

	Three Months Ended			Six Months Ended		
	June 27, 2010	June 28, 2009	Increase (Decrease)	June 27, 2010	June 28, 2009	Increase (Decrease)
Domestic Company-owned restaurants	\$ 8,656	\$ 10,152	\$ (1,496)	\$ 20,101	\$ 20,543	\$ (442)
Domestic commissaries	8,036	7,484	552	15,184	16,868	(1,684)
Domestic franchising	15,448	12,824	2,624	31,370	26,506	4,864
International	(1,071)	(847)	(224)	(2,174)	(1,624)	(550)
All others	178	613	(435)	1,127	1,014	113
Unallocated corporate expenses	(12,129)	(13,673)	1,544	(22,959)	(26,698)	3,739
Elimination of intersegment profits	(133)	(101)	(32)	(220)	(116)	(104)
Income before income taxes, excluding variable interest entities	18,985	16,452	2,533	42,429	36,493	5,936
BIBP, a variable interest entity	2,678	6,854	(4,176)	6,163	15,879	(9,716)
Total income before income taxes	21,663	23,306	(1,643)	48,592	52,372	(3,780)
Income attributable to noncontrolling interests	(911)	(1,092)	181	(2,000)	(2,017)	17
Total income before income taxes, net of noncontrolling interests	<u>\$ 20,752</u>	<u>\$ 22,214</u>	<u>\$ (1,462)</u>	<u>\$ 46,592</u>	<u>\$ 50,355</u>	<u>\$ (3,763)</u>

Excluding the impact of the consolidation of BIBP, second quarter 2010 income before taxes, net of noncontrolling interests, was \$18.1 million, or an increase of approximately \$2.7 million over the 2009 comparable results, and income before income taxes, net of noncontrolling interests, for the six months ended June 27, 2010 was \$40.4 million, or an increase of \$6.0 million from 2009 comparable results. The increases of \$2.7 million and \$6.0 million, respectively, for the three and six months ended June 27, 2010 (excluding the consolidation of BIBP) were principally due to the following:

- Domestic Company-owned Restaurant Segment.** Domestic Company-owned restaurants' operating income was \$8.7 million and \$20.1 million for the three and six months ended June 27, 2010, respectively, compared to \$10.2 million and \$20.5 million for the prior comparable periods, respectively. The decreases of \$1.5 million and \$400,000 in the second quarter and six-month periods of 2010, respectively, were primarily due to a decline in the operating margin from a lower average ticket price, partially offset by increased customer traffic. Commodity costs were favorable for both the three- and six-month periods, with the most favorable impact in the first three months of 2010.

Restaurant operating margin on an external basis was 21.2% and 22.0% for the three and six months ended June 27, 2010, respectively, compared to 22.9% and 23.2% for the comparable 2009 periods. Excluding the impact of the consolidation of BIBP, restaurant operating margins were 20.7% and 21.4% for the three and six months ended June 27, 2010, respectively, compared to 21.6% and 21.7% in the prior comparable 2009 periods.

- **Domestic Commissary Segment.** Domestic commissaries' operating income increased approximately \$550,000 for the second quarter of 2010 and decreased \$1.7 million for the six months ended June 27, 2010. The improvement in operating income for the second quarter was primarily due to increased sales volumes and the prior year included management transition costs of approximately \$700,000. The decrease for the six-month period of 2010, as compared to the corresponding 2009 period, was primarily due to a lower gross margin as we reduced the prices charged to restaurants for certain products and absorbed both commodity cost increases for certain vegetable products resulting from harsh Florida winter weather and increased fuel costs, partially offset by the previously mentioned prior year impact of \$700,000 in management transition costs.
- **Domestic Franchising Segment.** Domestic franchising operating income increased approximately \$2.6 million to \$15.4 million for the three months ended June 27, 2010, from \$12.8 million in the prior comparable period and increased \$4.9 million to \$31.4 million for the six months ended June 27, 2010, from \$26.5 million in the prior comparable period. The increases were primarily due to an increase in franchise royalties (the standard rate was 4.25% in 2009 and was increased to 4.75% in 2010). The impact of the royalty rate increase was partially offset by the impact of development incentive programs offered by the Company in 2009 and 2010. Franchise and development fees were approximately \$20,000 higher and \$160,000 lower than the prior year quarter and six-month period, respectively, even though we had 34 and 51 additional domestic unit openings during the three and six month periods, respectively, in 2010. Additionally, we incurred incentive payment costs of \$128,000 and \$271,000 in the three and six months ended June 27, 2010, compared to \$30,000 and \$60,000 in the comparable periods of the prior year.
- **International Segment.** The international segment reported operating losses of approximately \$1.1 million and \$2.2 million for the three and six months ended June 27, 2010, respectively, compared to losses of \$850,000 and \$1.6 million in the prior comparable periods. The declines in operating results in both periods were primarily due to increased personnel and franchise support costs, and start-up costs associated with our Company-owned commissary in the United Kingdom, which opened in the second quarter of 2010. The increase in costs was partially offset by increased revenues due to growth in number of international units.
- **All Others Segment.** Operating income for the "All others" reporting segment decreased approximately \$400,000 for the second quarter of 2010 and increased approximately \$100,000 for the six months ended June 27, 2010 as compared to the corresponding 2009 periods. The decline in the second quarter was primarily due to an increase in infrastructure and support costs associated with our online ordering business unit. We expect to recoup these and future enhancement costs from ongoing online ordering fees charged to domestic restaurants over time. For the six-month period, this decline in operating income related to the online ordering business unit was more than offset by an improvement in operating income at our print and promotions subsidiary, Preferred Marketing Solutions.
- **Unallocated Corporate Segment.** Unallocated corporate expenses decreased approximately \$1.5 million and \$3.7 million for the three and six months ended June 27, 2010, respectively, as compared to the corresponding periods in the prior year.

[Table of Contents](#)

The components of unallocated corporate expenses were as follows (in thousands):

	Three Months Ended			Six Months Ended		
	June 27, 2010	June 28, 2009	Increase (decrease)	June 27, 2010	June 28, 2009	Increase (decrease)
General and administrative (a)	\$ 8,118	\$ 7,896	\$ 222	\$ 14,773	\$ 14,692	\$ 81
Net interest	1,042	1,080	(38)	1,946	2,116	(170)
Depreciation	2,236	2,118	118	4,401	4,245	156
Franchise support initiatives (b)	1,250	2,168	(918)	2,500	4,415	(1,915)
Provision (credit) for uncollectible accounts and notes receivable (c)	(98)	449	(547)	217	1,512	(1,295)
Other income (d)	(419)	(38)	(381)	(878)	(282)	(596)
Total unallocated corporate expenses	<u>\$ 12,129</u>	<u>\$ 13,673</u>	<u>\$ (1,544)</u>	<u>\$ 22,959</u>	<u>\$ 26,698</u>	<u>\$ (3,739)</u>

- (a) Unallocated general and administrative costs were relatively flat as lower salaries and benefits, resulting from fewer employees, were more than offset by increased short and long-term incentive compensation and severance costs. The second quarter and six-month period of 2009 also included \$800,000 in litigation settlement costs.
- (b) A reduction in franchise support initiatives, which primarily consist of discretionary contributions to the national marketing fund and other local advertising cooperatives, was in line with initial expectations for the three and six months ended June 27, 2010.
- (c) The 2009 provisions for uncollectible accounts and notes receivable included specific incremental reserves for one third-party customer and a loan issued to one domestic franchisee, whereas the 2010 provision reflects the collection of a previously reserved account.
- (d) Other income was favorable in both the three- and six-month periods of 2010 due to lower disposition-related costs.

Diluted earnings per share were \$0.49 (including a \$0.06 per share gain from the consolidation of BIBP) in the second quarter of 2010, compared to \$0.51 (including a \$0.15 per share gain from the consolidation of BIBP) in the second quarter of 2009. For the six months ended June 27, 2010, diluted earnings per share were \$1.11 (including a \$0.14 per share gain from the consolidation of BIBP), compared to \$1.15 (including a \$0.36 per share gain from the consolidation of BIBP) for the comparable 2009 period. Share repurchase activity had no impact on earnings per diluted share for the three and six months ended June 27, 2010.

Review of Operating Results

Revenues. Domestic Company-owned restaurant sales were \$124.6 million for the three months ended June 27, 2010, compared to \$125.0 million for the same period in 2009, and \$254.2 million for the six months ended June 27, 2010, compared to \$256.7 million for the same period in 2009. The decreases of \$400,000 and \$2.4 million were primarily due to the decline of 1.1% and 1.5% in comparable sales during the three and six months ended June 27, 2010. "Comparable sales" represents sales generated by restaurants open for the entire twelve-month period reported.

Domestic franchise sales for the three and six months ended June 27, 2010 increased 1.5% to \$394.5 million and increased 1.0% to \$794.7 million, from \$388.8 million and \$786.5 million for the same periods in 2009, respectively, as our domestic franchise comparable sales increased 0.9% and 0.5% for the three- and six-months ended June 27, 2010 and equivalent units increased 0.9% and 0.6% for the two comparable periods. "Equivalent units" represents the number of restaurants open at the beginning of a given period, adjusted for restaurants opened, closed, acquired or sold during the period on a weighted average basis. Domestic franchise

[Table of Contents](#)

royalties were \$17.1 million and \$34.9 million for the three and six months ended June 27, 2010, respectively, representing increases of 16.9% and 16.2% from both comparable periods. The increases in royalties are primarily due to the previously mentioned increase in the standard royalty rate to 4.75% of sales in 2010 from 4.25% of sales in 2009.

The average weekly sales for comparable units include restaurants that were open throughout the periods are presented below. The comparable sales base for Company-owned and franchised restaurants, respectively, includes restaurants acquired by the Company or divested to franchisees, as the case may be, during the previous twelve months. Average weekly sales for other units include restaurants that were not open throughout the periods presented below and include non-traditional sites. Average weekly sales for non-traditional units not subject to continuous operation are calculated upon actual days open.

The comparable sales base and average weekly sales for 2010 and 2009 for domestic Company-owned and domestic franchised restaurants consisted of the following:

	Three Months Ended			
	June 27, 2010		June 28, 2009	
	Company	Franchised	Company	Franchised
Total domestic units (end of period)	590	2,224	589	2,192
Equivalent units	586	2,157	583	2,139
Comparable sales base units	577	2,028	565	2,026
Comparable sales base percentage	98.5%	94.0%	96.9%	94.7%
Average weekly sales - comparable units	\$ 16,447	\$ 14,161	\$ 16,563	\$ 13,944
Average weekly sales - traditional non-comparable units	\$ 12,944	\$ 11,208	\$ 16,505	\$ 10,958
Average weekly sales - non-traditional non-comparable units	\$ 7,100	\$ 15,688	\$ 6,840	\$ 23,938
Average weekly sales - total non-comparable units	\$ 10,694	\$ 12,574	\$ 14,522	\$ 14,715
Average weekly sales - all units	\$ 16,361	\$ 14,066	\$ 16,502	\$ 13,985

	Six Months Ended			
	June 27, 2010		June 28, 2009	
	Company	Franchised	Company	Franchised
Total domestic units (end of period)	590	2,224	589	2,192
Equivalent units	585	2,147	585	2,134
Comparable sales base units	576	2,030	566	2,022
Comparable sales base percentage	98.5%	94.6%	96.8%	94.8%
Average weekly sales - comparable units	\$ 16,804	\$ 14,368	\$ 16,956	\$ 14,213
Average weekly sales - traditional non-comparable units	\$ 12,781	\$ 11,489	\$ 16,275	\$ 11,290
Average weekly sales - non-traditional non-comparable units	\$ 7,089	\$ 13,042	\$ 6,476	\$ 20,646
Average weekly sales - total non-comparable units	\$ 10,745	\$ 11,977	\$ 14,353	\$ 13,487
Average weekly sales - all units	\$ 16,708	\$ 14,237	\$ 16,870	\$ 14,175

Domestic commissary sales increased 9.0% to \$113.9 million for the three months ended June 27, 2010 from \$104.5 million in the prior comparable period and increased 5.8% to \$226.6 million for the six months ended June 27, 2010 from \$214.1 million in the prior comparable period. The increases were due to an increase in sales volume. Our commissaries charge a fixed dollar mark-up on the cost of cheese. Cheese cost is based upon the BIBP block price, which increased from \$1.48 per pound in the second quarter of 2009 to \$1.53 per pound in the second quarter of 2010, or a 3.4% increase, and was \$1.55 per pound in the first six months of 2009 compared to \$1.56 per pound for the first six months of 2010. Other sales decreased \$1.0 million and \$1.2 million for the three and six months ended June 27, 2010, respectively, due to a decline in sales at our print and promotions subsidiary, Preferred Marketing Solutions.

[Table of Contents](#)

International revenues were \$11.9 million and \$23.1 million for the three and six months ended June 27, 2010, compared to \$10.3 million and \$19.6 million for the comparable periods in 2009, reflecting the increase in the number of our Company-owned and franchised restaurants over the past year. Our PJUK operations represented approximately 51% of international revenues during the six-month period in 2010.

Costs and Expenses. The restaurant operating margin for domestic Company-owned units was 21.2% and 22.0% for the three and six months ended June 27, 2010, respectively, compared to 22.9% and 23.2% for the same periods in 2009. Excluding the impact of consolidating BIBP, the restaurant operating margin decreased 0.9% to 20.7% in the second quarter of 2010 from 21.6% in the same quarter of the prior year, and decreased 0.3% to 21.4% for the six months ended June 27, 2010 from 21.7% for the same period of the prior year, consisting of the following differences:

- Cost of sales were 1.8% and 1.1% higher (excluding the consolidation of BIBP) for the three and six months ended June 27, 2010, as compared to the same periods of 2009, as lower commodity costs were more than offset by the increased level of discounting to customers in response to the competitive environment in which we are currently operating.
- Salaries and benefits were 1.5% and 1.6% lower as a percentage of sales for the three and six months ended June 27, 2010 as compared to the 2009 periods, primarily due to labor efficiencies from implemented initiatives, and a change in pay practices for certain team members.
- Advertising and related costs as a percentage of sales were 8.9% for both the three and six months ended June 27, 2010, as compared to 9.1% and 8.8% in the comparable 2009 periods.
- Occupancy costs and other operating costs, on a combined basis, as a percentage of sales, were 20.7% and 20.4% for the three and six months ended June 27, 2010, as compared to 19.9% and 19.7% for the corresponding 2009 periods. The increases are primarily due to the previously mentioned initiatives, including reimbursement rates for certain team members.

Domestic commissary and other margin was 8.9% and 9.0% for the three and six months ended June 27, 2010, respectively, compared to 10.1% for both the same periods in 2009. Cost of sales was 75.0% of revenues for both the three and six months ended June 27, 2010, compared to 73.3% and 73.8% for the same periods in 2009. Cost of sales increased primarily due to our commissaries' absorbing an increase in prices of certain commodities, including increases in vegetable products due to the impact from harsh Florida winter weather during 2010. Salaries and benefits were relatively consistent for both periods at \$8.6 million and \$17.3 million for the three and six months ended June 27, 2010, compared to \$8.6 million and \$17.5 million for the corresponding 2009 periods. Other operating expenses increased approximately \$900,000 and \$1.9 million for the three and six months ended June 27, 2010, as compared to the comparable 2009 periods, primarily due to higher distribution costs, reflecting increased volumes and an increase in fuel costs.

We recorded pre-tax income from the franchise cheese-purchasing program, net of noncontrolling interest, of \$2.2 million and \$5.0 million for the three and six months ended June 27, 2010, compared to pre-tax income of \$5.5 million and \$12.6 million for the corresponding periods in 2009. These results only represent the portion of BIBP's operating income related to the proportion of BIBP cheese sales to franchisees. The total impact of the consolidation of BIBP on Papa John's pre-tax income was income of approximately \$2.7 million and \$6.2 million for the three and six months ended June 27, 2010, compared to pre-tax income of \$6.9 million and \$15.9 million in the same periods of 2009.

General and administrative expenses were \$29.0 million or 10.3% of revenues for the three months ended June 27, 2010, compared to \$29.8 million or 11.1% of revenues for the same period in 2009, and \$56.9 million, or 10.0% of revenues, for the six months ended June 27, 2010, compared to \$57.3 million, or 10.4% of revenues, for the same period in 2009. A decline in salaries and benefits, resulting from fewer employees, was substantially offset by an increase in short and long-term incentive compensation. Additionally, the 2009 periods included the settlement of a litigation matter in the amount of \$800,000.

In July, the Company implemented an initiative to reduce general and administrative (G&A) expenses which included a reduction in force primarily in the corporate support area and our printing and promotions subsidiary. After considering severance and related costs, the G&A initiative is not expected to have a significant impact on operating income for the second half of 2010. Cost savings from the initiative are expected to approximate \$4.0 million to \$4.5 million in 2011.

[Table of Contents](#)

Other general expenses reflected net expense of \$1.7 million and \$4.0 million for the three and six months ended June 27, 2010, respectively, compared to \$3.0 million and \$7.4 million, respectively, for the comparable periods in 2009 as detailed below (in thousands):

	Three Months Ended			Six Months Ended		
	June 27, 2010	June 28, 2009	Increase (Decrease)	June 27, 2010	June 28, 2009	Increase (Decrease)
Disposition and valuation-related costs	\$ 97	\$ 109	\$ (12)	\$ 405	\$ 808	\$ (403)
Provision (credit) for uncollectible accounts and notes receivable						
(a)	(36)	430	(466)	334	1,628	(1,294)
Pre-opening costs	8	(31)	39	119	33	86
Franchise support initiatives (b)	1,250	2,398	(1,148)	2,500	4,645	(2,145)
Other	368	137	231	619	301	318
Total other general expenses	<u>\$ 1,687</u>	<u>\$ 3,043</u>	<u>\$ (1,356)</u>	<u>\$ 3,977</u>	<u>\$ 7,415</u>	<u>\$ (3,438)</u>

(a) The 2009 provision for uncollectible accounts and notes receivable included specific incremental reserves for one third-party customer and a loan issued to one domestic franchisee, whereas the 2010 provision reflects the collection of a previously reserved account.

(b) A reduction in franchise support initiatives, which primarily consist of discretionary contributions to the national marketing fund and other local advertising cooperatives, was in line with initial expectations for the three and six months ended June 27, 2010.

Depreciation and amortization was \$8.2 million (2.9% of revenues) and \$16.1 million (2.8% of revenues) for the three and six months ended June 27, 2010, respectively, compared to \$7.8 million (2.9% of revenues) and \$15.6 million (2.8% of revenues) for the comparable periods in 2009, respectively.

Net interest. Net interest expense was \$1.1 million for the three months ended June 27, 2010 as compared to \$1.3 million in 2009 and \$2.1 million for the six months ended June 27, 2010, compared to \$2.6 million in the comparable 2009 period. The decreases in net interest costs reflect a lower average outstanding debt balance and interest earned on increased cash investments.

Income Tax Expense. Our effective income tax rates were 34.9% and 34.0%, respectively, for the three and six months ended June 27, 2010 (34.7% and 33.6%, respectively, for the three- and six-month periods, excluding BIBP) compared to 34.5% and 35.0%, respectively, for the corresponding 2009 periods (32.6% and 34.3%, for the corresponding periods in 2009, excluding BIBP). The effective rate may fluctuate from quarter to quarter as specific federal and state issues are settled or otherwise resolved, and we expect the rate to approximate 35% to 36% over time.

Liquidity and Capital Resources

Our debt is comprised of the following (in thousands):

	June 27, 2010	December 27, 2009
Revolving line of credit	\$ 99,000	\$ 99,000
Other	35	50
Total debt	99,035	99,050
Less: current portion of debt	(99,035)	—
Long-term debt	\$ —	\$ 99,050

The revolving line of credit allows us to borrow up to \$175.0 million with an expiration date of January 2011. The \$99.0 million outstanding balance is classified as a current obligation due to the January 2011 expiration date. We do not anticipate any difficulties in renewing the line of credit prior to the expiration date. Outstanding balances accrue interest at 50.0 to 100.0 basis points over the London Interbank Offered Rate (LIBOR) or other bank developed rates at our option. The increment over LIBOR and the commitment fee are determined quarterly based upon the ratio of total indebtedness to earnings before interest, taxes, depreciation and amortization (“EBITDA”), as defined in the line of credit.

The revolving line of credit contains customary affirmative and negative covenants, including the following financial covenants, as defined (the covenants exclude the impact of consolidating BIBP’s operations):

	Permitted Ratio	Actual Ratio for the Quarter Ended June 27, 2010
Leverage Ratio	Not to exceed 2.5 to 1.0	1.0 to 1.0
Interest Coverage Ratio	Not less than 3.5 to 1.0	4.9 to 1.0

We were in compliance with all covenants at June 27, 2010 and December 27, 2009.

Cash flow from operating activities was \$45.7 million for the six months ended June 27, 2010, compared to \$54.5 million for the same period in 2009. Cash flow from BIBP increased cash flow from operations by approximately \$6.2 million and \$15.9 million in the first six months of 2010 and 2009, respectively (as reflected in the net income and deferred income taxes captions in the accompanying Consolidated Statements of Cash Flows). Excluding the impact of BIBP, cash flow from operating activities was \$39.5 million in the first six months of 2010 and \$38.7 million in the first six months of 2009. The favorable impact of higher net income was partially offset by unfavorable working capital changes.

[Table of Contents](#)

The Company's free cash flow for the six months ended June 27, 2010 and June 28, 2009 was as follows (in thousands):

	Six Months Ended	
	June 27, 2010	June 28, 2009
Net cash provided by operating activities	\$ 45,686	\$ 54,536
Income from BIBP cheese purchasing entity	(6,163)	(15,879)
Purchases of property and equipment	(16,871)	(15,193)
Free cash flow (a)	<u>\$ 22,652</u>	<u>\$ 23,464</u>

- (a) Free cash flow is defined as net cash provided by operating activities (from the consolidated statements of cash flows) excluding the impact of BIBP, less the purchases of property and equipment. We view free cash flow as an important measure because it is one factor that management uses in determining the amount of cash available for discretionary investment. Free cash flow is not a term defined by U.S. GAAP and as a result our measure of free cash flow might not be comparable to similarly titled measures used by other companies. Free cash flow should not be construed as a substitute for or a better indicator of the Company's performance than the Company's U.S. GAAP measures.

We require capital primarily for the development, acquisition, renovation and maintenance of restaurants, the development, renovation and maintenance of commissary and print and promotions facilities and equipment and the enhancement of corporate technological systems and facilities. In addition, we have a common stock repurchase program. During the six months ended June 27, 2010, common stock repurchases of \$24.4 million and capital expenditures of \$16.9 million were funded primarily by cash flow from operations and from available cash and cash equivalents.

Our Board of Directors has authorized the repurchase of our common stock through December 31, 2011. We repurchased approximately 975,000 shares of our common stock at an average price of \$25.05 per share, or a total of \$24.4 million, during the first six months of 2010. Subsequent to June 27, 2010, through July 28, 2010, we acquired an additional 274,000 shares with an aggregate cost of \$6.7 million and an average cost of \$24.36 per share. As of July 28, 2010, approximately \$52.7 million remained available for repurchase of common stock under this authorization.

We expect to fund planned capital expenditures and any additional share repurchases of our common stock for the remainder of 2010 from cash on hand and operating cash flows.

Forward-Looking Statements

Certain matters discussed in this report, including information within Management's Discussion and Analysis of Financial Condition and Results of Operations, and other Company communications constitute forward-looking statements within the meaning of the federal securities laws. Generally, the use of words such as "expect," "estimate," "believe," "anticipate," "will," "forecast," "plan," "project," or similar words identify forward-looking statements that we intend to be included within the safe harbor protections provided by the federal securities laws. Such statements may relate to projections concerning revenue, earnings, margins, unit growth and other financial and operational measures. Such statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which are difficult to predict and many of which are beyond our control. Therefore, actual outcomes and results may differ materially from those matters expressed or implied in such forward-looking statements.

[Table of Contents](#)

The risks, uncertainties and assumptions that are involved in our forward-looking statements include, but are not limited to: changes in pricing or other marketing or promotional strategies by competitors which may adversely affect sales, including an increase in or continuation of the aggressive pricing and promotional environment; new product and concept developments by food industry competitors; the ability of the Company and its franchisees to meet planned growth targets and operate new and existing restaurants profitably; general economic conditions and resulting impact on consumer buying habits; changes in consumer preferences; increases in or sustained high costs of food ingredients and other commodities, paper, utilities, fuel, employee compensation and benefits, insurance and similar costs (including the impact of the recently passed federal health care legislation); the ability of the Company to pass along such increases in or sustained high costs to franchisees or consumers; the Company's contingent liability for the payment of certain lease arrangements, approximating \$4.8 million, involving our former Perfect Pizza operations that were sold in March 2006; the impact of legal claims and current proposed legislation impacting our business; the impact that product recalls, food quality or safety issues, and general public health concerns could have on our restaurants; and increased risks associated with our international operations. These and other risk factors as discussed in detail in "Part I. Item 1A. — Risk Factors" in our Annual Report on Form 10-K for our 2009 fiscal year could materially affect the Company's business, financial condition or operating results. We undertake no obligation to update publicly any forward-looking statements, whether as a result of future events, new information or otherwise, except as required by law.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our debt at June 27, 2010 was principally comprised of a \$99.0 million outstanding principal balance on the \$175 million unsecured revolving line of credit. The interest rate on the revolving line of credit is variable and is based on LIBOR plus a 50.0 to 100.0 basis point spread, tiered based upon debt and cash flow levels, or other bank developed rates at our option.

We have two interest rate swap agreements that provide for fixed rates of 4.98% and 3.74%, as compared to LIBOR, on the following amount of floating rate debt:

	Floating Rate Debt	Fixed Rates
<i>The first interest rate swap agreement:</i>		
January 16, 2007 to January 15, 2009	\$ 60 million	4.98%
January 15, 2009 to January 15, 2011	\$ 50 million	4.98%
<i>The second interest rate swap agreement:</i>		
January 31, 2009 to January 31, 2011	\$ 50 million	3.74%

The effective interest rate on the line of credit, including the impact of the two interest rate swap agreements, was 5.0% as of June 27, 2010. An increase in the present interest rate of 100 basis points on the line of credit balance outstanding as of June 27, 2010, net of the interest rate swap agreements, would have no impact on interest expense.

We do not enter into financial instruments to manage foreign currency exchange rates since less than 5% of our total revenues are derived from sales to customers and royalties outside the contiguous United States.

Cheese costs, historically representing 35% to 40% of our total food cost, are subject to seasonal fluctuations, weather, availability, demand and other factors that are beyond our control. As previously discussed in "Results of Operations and Critical Accounting Policies and Estimates", we have a purchasing arrangement with a third-party entity, BIBP, formed at the direction of our Franchise Advisory Council, for the sole purpose of reducing cheese price volatility to domestic system-wide restaurants.

[Table of Contents](#)

Papa John's consolidates the operating results of BIBP. Consolidation accounting requires the portion of BIBP operating income (loss) related to domestic Company-owned restaurants to be reflected as a reduction (increase) in the "Domestic Company-owned restaurant expenses — cost of sales" line item, thus reflecting the actual market price of cheese had the purchasing arrangement not existed. The consolidation of BIBP had a significant impact on our operating results for the first six months of 2010 and 2009 and is expected to have a significant impact on future operating results depending on the prevailing spot block market price of cheese as compared to the price charged to domestic restaurants.

The following table presents the actual average block price for cheese and the average BIBP block price by quarter as projected through the second quarter of 2011 (based on the July 28, 2010 Chicago Mercantile Exchange (CME) milk futures market prices):

	2011		2010		2009	
	BIBP Block Price	Actual Block Price	BIBP Block Price	Actual Block Price	BIBP Block Price	Actual Block Price
Quarter 1	\$ 1.629*	\$ 1.548*	\$ 1.595	\$ 1.431	\$ 1.621	\$ 1.184
Quarter 2	1.613*	1.562*	1.529	1.407	1.479	1.178
Quarter 3	N/A	N/A	1.571*	1.554*	1.478	1.240
Quarter 4	N/A	N/A	1.617*	1.567*	1.608	1.548
Full Year	N/A	N/A	\$ 1.578*	\$ 1.490*	\$ 1.547	\$ 1.288

*amounts are estimates based on futures prices

N/A - not available

The following table presents the 2009 impact by quarter on our pre-tax income due to consolidating BIBP (in thousands):

	Actual 2009
Quarter 1	\$ 9,025
Quarter 2	6,854
Quarter 3	5,104
Quarter 4	1,560
Full Year	\$ 22,543

Additionally, based on the CME milk futures market prices as of July 28, 2010, and the projected cheese costs to restaurants as determined by the BIBP pricing formula for the next four quarters, the consolidation of BIBP is projected to increase our pre-tax income as follows (in thousands):

Quarter 1 - 2010	\$ 3,485
Quarter 2 - 2010	2,678
Quarter 3 - 2010	397*
Quarter 4 - 2010	1,170*
Full Year - 2010	\$ 7,730*
Quarter 1 - 2011	\$ 1,869*
Quarter 2 - 2011	\$ 1,193*

*The projections above are based upon current futures market prices. Historically, actual results have been subject to large fluctuations and have at times differed significantly from previous projections using the futures market prices.

[Table of Contents](#)

Over the long-term, we expect to purchase cheese at a price approximating the actual average market price and therefore we do not generally make use of financial instruments to hedge commodity prices.

Item 4. Controls and Procedures

Our Co-Chief Executive Officers (“CEOs”) and Chief Financial Officer (“CFO”) evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (“1934 Act”)), as of the end of the period covered by this report. Based upon their evaluation, the CEOs and CFO concluded that the disclosure controls and procedures are effective.

We also maintain a system of internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the 1934 Act) designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States. During our most recent fiscal quarter, there have been no changes in our internal control over financial reporting that occurred that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are subject to claims and legal actions in the ordinary course of our business. We believe none of the claims and actions currently pending against us would have a material adverse effect on us if decided in a manner unfavorable to us.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Papa John’s Board of Directors has authorized the repurchase of up to \$825.0 million of common stock under a share repurchase program that began December 9, 1999, and runs through December 31, 2011. Through June 27, 2010, a total of 44.5 million shares with an aggregate cost of \$765.6 million and an average price of \$17.21 per share have been repurchased under this program. Subsequent to June 27, 2010, through July 28, 2010, we acquired an additional 274,000 shares with an aggregate cost of \$6.7 million and an average cost of \$24.36 per share. As of July 28, 2010, approximately \$52.7 million remained available for repurchase of common stock under this authorization.

The following table summarizes our repurchases by fiscal period during the first six months of 2010 (in thousands, except per-share amounts):

Fiscal Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Publicly Announced Plans or Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
12/28/2009 - 01/24/2010	—	—*	43,508	\$ 83,798
01/25/2010 - 02/21/2010	55	\$ 22.51	43,563	\$ 82,553
02/22/2010 - 03/28/2010	160	\$ 25.14	43,723	\$ 78,529
03/29/2010 - 04/25/2010	93	\$ 25.64	43,816	\$ 76,159
04/26/2010 - 05/23/2010	257	\$ 25.50	44,073	\$ 69,600
05/24/2010 - 06/27/2010	410	\$ 24.93	44,483	\$ 59,381

*There were no share repurchases during this period.

[Table of Contents](#)

Our share repurchase authorization increased from \$775.0 million to \$825.0 million in July 2010. For presentation purposes, the maximum dollar value of shares that may be purchased was adjusted retroactively to December 28, 2009.

The Company utilized a written trading plan under Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, to facilitate the repurchase of shares of our common stock under this share repurchase program. There can be no assurance that we will repurchase shares of our common stock either through our Rule 10b5-1 trading plan or otherwise. The trading plan includes predetermined criteria and limitations and is scheduled to expire December 31, 2010, unless terminated sooner under plan provisions.

During the period of April 26, 2010 through May 23, 2010, 1,349 shares of restricted stock were delivered by employees to the Company, upon vesting, to satisfy tax withholding requirements.

Item 6. Exhibits

Exhibit Number	Description
10.1	Agreement and Release between William Mitchell and Papa John's International, Inc. Exhibit 10.1 to our report on Form 8-K/A dated May 7, 2010 is incorporated by reference.
31.1.1	Certification of Co-Chief Executive Officer Pursuant to Exchange Act Rule 13a-15(e), As Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.1.2	Certification of Co-Chief Executive Officer Pursuant to Exchange Act Rule 13a-15(e), As Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of Chief Financial Officer Pursuant to Exchange Act Rule 13a-15(e), As Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1.1	Certification of Co-Chief Executive Officer Pursuant to 18 U.S.C. Section 1350, As Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.1.2	Certification of Co-Chief Executive Officer Pursuant to 18 U.S.C. Section 1350, As Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2	Certification of Chief Financial Officer Pursuant to 18 U.S.C. Section 1350, As Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
101	Financial statements from the quarterly report on Form 10-Q of Papa John's International, Inc. for the quarter ended June 27, 2010, filed on August 3, 2010, formatted in XBRL: (i) the Consolidated Statements of Income, (ii) the Condensed Consolidated Balance Sheets, (iii) the Consolidated Statements of Stockholders' Equity, (iv) the Consolidated Statements of Cash Flows and (v) the Notes to Condensed Consolidated Financial Statements tagged as blocks of text.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

PAPA JOHN'S INTERNATIONAL, INC.
(Registrant)

**SECTION 302
CERTIFICATION**

I, John H. Schnatter, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Papa John's International, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
