### Financial Highlights

#### Three Months Ended

In thousands, except per share amounts	Mar. 28, 2021	Mar. 29, 2020	Increase
Revenue	\$ 511,746	\$ 409,859	\$ 101,887
Operating income	46,862	15,472	31,390
Net income	33,883	8,443	25,440
Diluted earnings per share	0.82	0.15	0.67
Adjusted diluted earnings per share (a)	0.90	0.15	0.75

Adjusted diluted earnings per share is a non-GAAP measure that excludes "Special items," which impact comparability. Special items of \$3.9 (a) million for 2021 include strategic corporate reorganization costs associated with our new office in Atlanta, Georgia projected to open in the summer of 2021. The reconciliation of GAAP to non-GAAP financial results is included in "Reconciliation of Non-GAAP Financial Measures" below.

#### Revenues

Consolidated revenues of \$511.7 million increased \$101.9 million, or 24.9%, in the first quarter of 2021 compared to the first quarter of 2020 primarily as a result of strong comparable sales results for North America restaurants, which benefited from successful menu innovation, including the new Epic Stuffed Crust pizza, and expanding customer base, as reflected in higher company-owned restaurant revenues, franchise royalties and commissary sales. International revenues also increased primarily due to higher commissary revenues and higher royalties from strong comparable sales results of 23.2% for the quarter.

#### Operating Results

Consolidated operating income of \$46.9 million for the first quarter of 2021 increased \$31.4 million compared to the first quarter of 2020. The increase primarily reflects strong operating leverage and expense control on higher comparable sales both domestically and internationally. Additionally, temporary franchise support of \$10.7 million (\$5.7 million of royalty relief and \$5.0 million of discretionary marketing fund investments) was provided in the first quarter of 2020. The franchise assistance program concluded in the third quarter of 2020.

Diluted earnings per share was \$0.82 for the first quarter of 2021 representing an increase of \$0.67 over the first quarter of 2020. Excluding Special items, diluted earnings per share was \$0.90 representing an increase of \$0.75 over the first quarter of 2020. Diluted earnings per share was reduced by approximately \$0.10 per diluted share in the first quarter of 2021 (\$0.11 impact when excluding Special items) due to income attributable to participating securities, including our Series B Convertible Preferred Stock (the "Series B Preferred Stock"), based on the allocation of undistributed earnings to participating securities in the quarter.

#### Free Cash Flow

The company's free cash flow (a non-GAAP financial measure defined as net cash provided by operating activities, less purchases of property and equipment and dividends paid to preferred shareholders) for the first quarter of 2021 and 2020, respectively, were as follows (in thousands):

	First Quarter	
	Mar. 28, 2021	Mar. 29, 2020
Net cash provided by operating activities	\$ 63,217	\$ 33,734
Purchases of property and equipment	(7,076 )	(5,933 )
Dividends paid to preferred shareholders	(3,412 )	(3,412 )
Free cash flow	\$ 52,729	\$ 24,389

We view free cash flow as an important financial measure because it is one factor that management uses in determining the amount of cash available for discretionary investment. Free cash flow is not a term defined by GAAP, and as a result, our measure of free cash flow might not be comparable to similarly titled measures used by other companies. Free cash flow should not be construed as a substitute for or a better indicator of the company's performance than the company's GAAP measures.

See the Management's Discussion and Analysis of Financial Condition and Results of Operations section of our Quarterly Report on Form 10-Q filed with the SEC for additional information concerning our operating results and cash flow for the three months ended March 28, 2021.

## Cash Dividend

The company paid common and preferred stock dividends of \$10.8 million in the first quarter of 2021. The company declared second quarter 2021 dividends of approximately \$10.9 million on April 27, 2021, which will be paid to common shareholders on May 21, 2021. The second quarter preferred dividend will be paid on July 1, 2021. The declaration and payment of any future dividends on our common stock will be at the discretion of our Board of Directors, subject to the company's financial results, cash requirements, and other factors deemed relevant by our Board of Directors. The holders of Series B Preferred Stock receive quarterly preferred dividends and common stock dividends on an as converted to common stock basis.

## Supplemental Information and Financial Statements

### Definition

Comparable sales: We believe North America, international and global restaurant and comparable sales growth information is useful in analyzing our results since our franchisees pay royalties and marketing fund contributions that are based on a percentage of franchise sales. Franchise sales also generate commissary revenue in the United States and in certain international markets. Franchise restaurant and comparable sales growth information is also useful for comparison to industry trends and evaluating the strength of our brand. Management believes the presentation of franchise restaurant sales growth, excluding the impact of foreign currency, provides investors with useful information regarding underlying sales trends and the impact of new unit growth without being impacted by swings in the external factor of foreign currency. Franchise restaurant sales are not included in the company’s revenues.

### Reconciliation of Non-GAAP Financial Measures

The table below reconciles our GAAP financial results to our adjusted financial results, which are non-GAAP measures. The non-GAAP adjusted results shown below and within this press release, which exclude the items in the table below (collectively defined as “Special items”), should not be construed as a substitute for or a better indicator of the company’s performance than the company’s GAAP results. Management believes presenting certain financial information excluding the Special items is important for purposes of comparison to current year results. In addition, management uses these metrics to evaluate the company’s underlying operating performance and to analyze trends.
